

# 2025 Symposium on Advanced Functional Materials in Quantum and Optoelectronics

## SUBMISSION GUIDE

In terms of information and publication support of the **2025 Symposium on Advanced Functional Materials in Quantum and Optoelectronics** a special issue of the journal "**Mesoscience and Nanotechnology**" (<https://jmsn.press>) will be organized, in which articles will be published based on the reports presented at the Symposium.

To submit an article, you must complete the following steps:

1. Go to the website of the journal "**Mesoscience and Nanotechnology**" using this link <https://jmsn.press>.

2. Click on the "Submit your article" button:

The screenshot shows the homepage of the journal Mesoscience & Nanotechnology. The website has a blue header with the journal's name and a navigation menu. The main content area features a large banner with the journal's title and a description. A yellow arrow points to a blue button labeled "Submit your article". Below the banner, there is a section for "Recent publications" with four featured articles, each with a thumbnail image and a title.

**Mesoscience & Nanotechnology**

Mesoscience and Nanotechnology is a peer-reviewed scientific journal that publishes original research articles, reviews, and perspectives in the field of interdisciplinary science, primarily focusing on the fundamental aspects, design, and synthesis of advanced materials at both the molecular and mesoscopic levels. The journal provides a platform for scientists, engineers, and other researchers to share their innovative ideas, discoveries, and advancements in the rapidly evolving fields of synthesis, characterization, fabrication, and applications of novel nanomaterials and mesoscale structures.

Electronic ISSN: 3034-6622
